Fresh Origins has several exciting products for beverage applications. Mixologists are finding that microgreens, herbs and edible flowers are a fantastic taste ingredient and beautiful garnish for all kinds of cocktails! Microgreens or edible flowers can invigorate any liquid creation, raising the bar for freshness, creativity and flavor. Simply floating an edible flower can change the look and increase value. Muddling microgreens or herbs will add their intense fresh flavors. Instead of using the typical, ordinary spearmint, try a unique variety such as our Chocolate Mint to really enhance cocktails!
